

**Defining
Cybersecurity
Success...**

**In Terms of
Business
Resilience**

Moderator: Allan Alford

CEO, Alford & Adams Consulting

Panelists:

Heather Costa, Director of Technology Resilience at Mayo Clinic

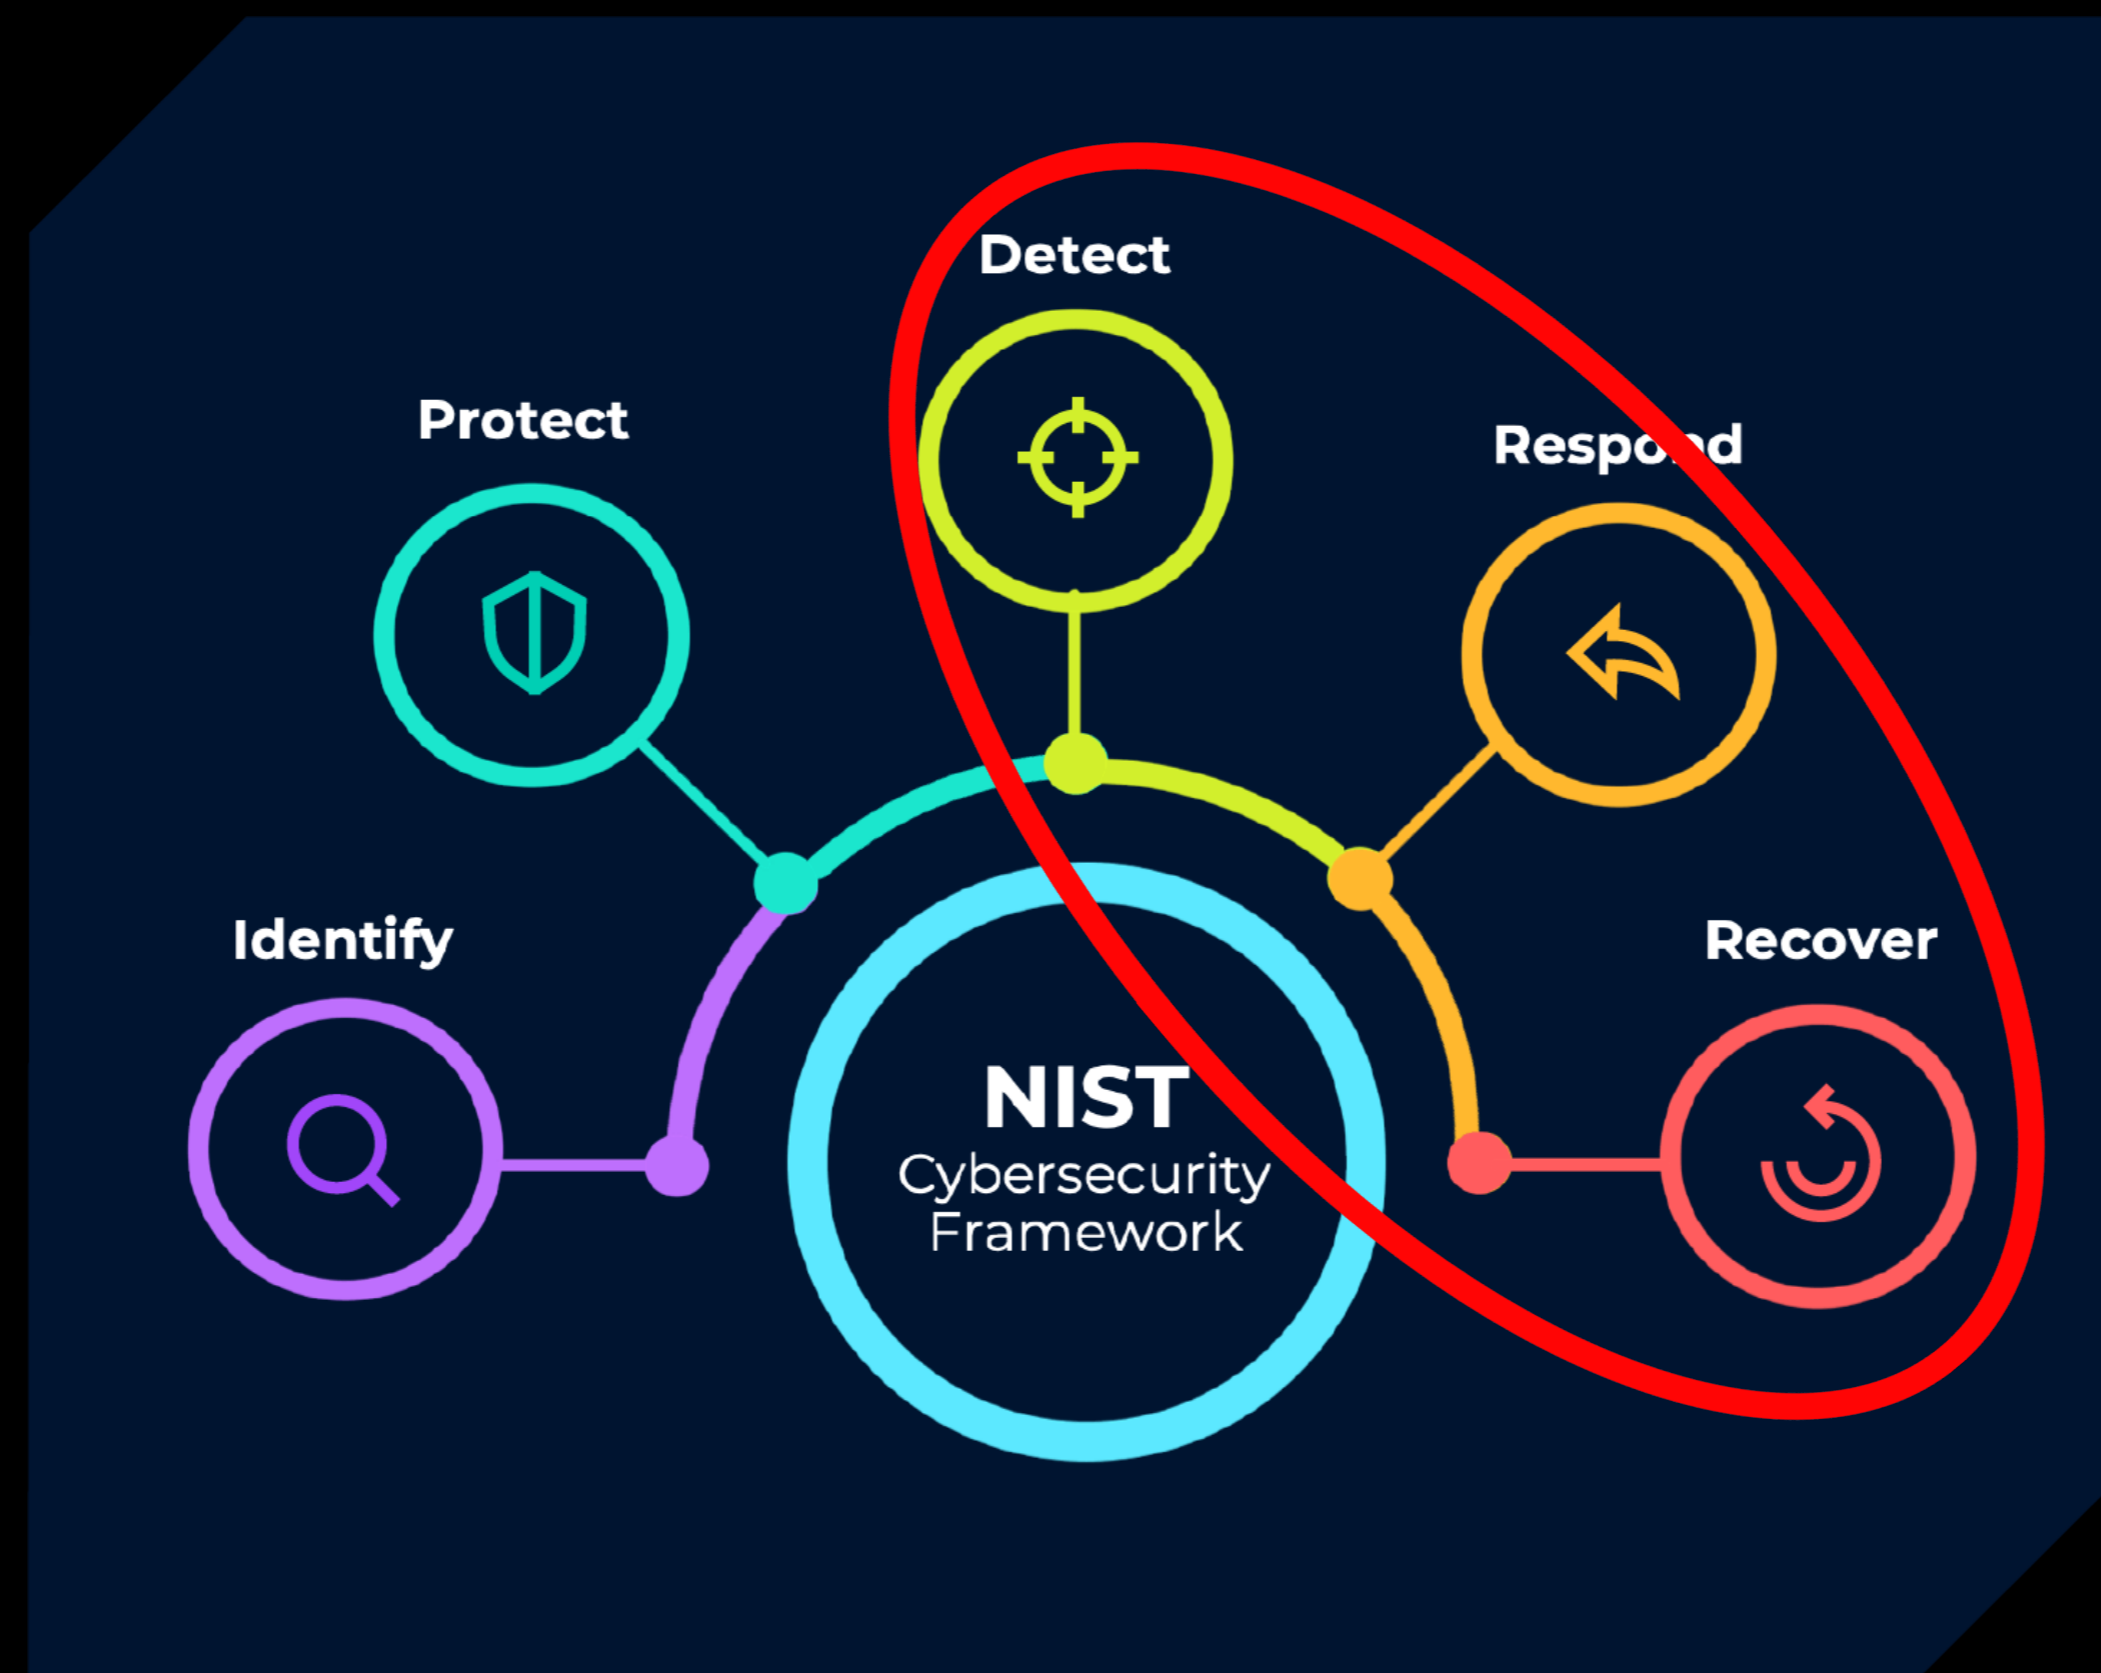

Augusto Barros, Vice President Product Marketing at Securonix

Johnny Brister, CSO at Alchemy Technology Group

The industry trend is moving towards resilience...

Should resilience be the goal?

Is a focus on resilience “giving in” to negativity?

“There are only two types of companies in the world: those that have been breached and know it and those that have been breached and don’t know it.”

- Ted Schlein

Disruptions and disasters?

Prevention AND resilience?

What does success look like?

How do we
measure
resilience?

Antifragility – Attainable?

According to my friend Sounil Yu:

"Antifragile systems become stronger after being harmed, while resilient systems can withstand disruptions and return to their previous state..."

Thank you!
